ARIES ELECTRONIC TRIM SET CAN BE FIT ON MOST DOORS. IT IS CONCEIVED TO BE USED ALSO WITH THE MAJORITY OF MECHANICAL LOCKS, FOR THE UTMOST INSTALLATION FLEXIBILITY.

The battery operation and cableless technology makes ARIES the perfect solution for access management, ensuring utmost flexibility and low installation costs both on new and existing doors.

Its **38 mm** narrow profile allows for a simple installation on any door (wooden, aluminium, metal, PVC and so on) together with locks with a backset of only **25 mm**.

All electronic and mechanical devices are inside the trim set and fixing only requires 3 holes on the door - one for the handle follower and one for the two fixing screws. This ensures a rapid, simple and harmless installation even on existing doors.
