management and control.

**Residential. Accommodation facilities.
Light commercial.**

ISEO ARGO

Argo App is the ideal solution for opening your doors in residential or light commercial contexts (B&B, small companies, offices, shops, etc.). You can use your smartphone as well as other devices, such as Apple Watch, fingerprints, PIN codes, keyfobs, cards. All you need is installing on your door, even without replacing them, an opening device of the Smart series (electronic locks, cylinders, trim sets, etc.).

Thanks to Argo App, you decide who can enter your home, your office or the room of your accommodation facility. You can even set a time slot for each access.

With Argo App, even from remote you can authorize people to enter. That's why this is the perfect solution for private homes, B&B and small hotels. For example, you can allow your guests to open their room's door with their smartphone on a specific day and time, even if you are at home or at work.

ISEO has the answer for all of your needs,
even for those you aren't aware of. Find it out on iseo.com.

Libra SMART

Electronic cylinder. It can be used with any type of mechanical lock prearranged for European profile cylinder. Installation doesn't require any wiring. This allows a quick and easy replacement of any mechanical cylinder. Available also Heavy Duty version.

Electromechanical lock for armoured doors, also with FINGERPRINT READER. Compatible with the most mechanical locks. In case of lack of power supply, opening is guaranteed by the mechanical key.

x1R SMART

Aries SMART

Electronic trim set, suitable with the most doors and mechanical locks. The installation doesn't require any wiring, because it is battery operated. Available also for external doors.

Credential reader. Available with keypad and display or with LEDs (also for external installations).

Stylos SMART

SMART **Relay**

It allows to open electrical locks, motorized gates or any electrical actuator which can be activated by closing a contact.

Lock for cupboards and lockers
to keep people's property safe temporarily.

SMART **Locker**
